

Georgia Rowswell  
Cheyenne Wyoming

## Artist Statement

I am a curious person. I see interest and uniqueness all around me. I understand that everything has its own story. I choose to tell these stories through the language I love best, art. Non-traditional materials with a heavy emphasis on pattern, color and texture are my storytellers.

## Artistic goal:

I want my art to take me to interesting places, spaces and faces. Through these encounters, I will work to create art that honors the stories of place and people.

## Motto:

Why be normal when you can be interesting

## Biography

I received a formal degree in painting and drawing but my connection with art began at an early age under the tutelage of my Mother. Her curiosity and mastery of the traditional woman's arts, instilled in me a love for, "The irregular and intimate quality of things made entirely by the human hand". \* The convergence of these two influences have made my art what it is today.
